**Onionhead®** introduces Codes of Caring for Kids

Mount Shasta, CA. (April 19, 2010) – **Onionhead®** today introduced the “Thirteen Codes of Caring for Kids”. Developed out of the need to save the children of our world through truth and love, these thirteen codes crisply and clearly define what each and every child deserves as a life experience... every day. Many of our children are increasingly becoming desensitized, dissatisfied and disenchanting with their lives. Too often, our institutions look to complex, expensive and inefficient fixes to these problems. That is how our children have become over medicated, over stimulated and over looked at a time when the urgency to act is stronger than ever.

The Thirteen Codes of Caring for Kids are timeless and timely. The solution is in teaching and practicing the simplest and most profound truths for caring for the soul, mind, emotions and body. The thirteen codes are cuddling, compromising, confiding, coloring, camping, collecting, considering, calling, comparing, calming, congratulating, consoling and communicating. Each code is explained and then **Onionhead®** provides his simple wisdom on how to apply them. The thirteen codes are available from **Onionhead®** as a download at no cost via his website at [www.onionhead.com](http://www.onionhead.com).

#### About **Onionhead®** and Company

The **Onionhead®** family feels that every person deserves the right to feel happy and safe. In order for that to be achieved, we believe we must learn how to navigate through feelings appropriately, no matter what the circumstances. In this world of global technology, children are exposed to things way beyond their age capacity. Therefore it is our responsibility to give them the tools they need in order to survive, protecting their innocence. Our printed material is made on either tree free or 100% recycled paper. We have laboratory certification that **Onionhead®** products are 100% lead and heavy metal free. Our products are proudly made in the U.S.A. We promise that whatever we put in the hands of your child, we would trust completely in the hands of our own.
